

# Homemade Poopourri Spray

## Ingredients:

- 20-40 drops of your favorite essential oil or a blend of oils (my favorite for this spray are the [Purity Blend](#) or the [Citrus Burst Blend](#)) *\*\*you can use more or less depending on your own preference (Use code: **KIRBYSKORNERFREE** at [Simply Earth](#))*
- 1-2 t. alcohol
- 8 - 12 oz of water\*\* *(just enough to fill your spray bottle-- I use one like [this](#) but ones like [these](#) may work better but you would divide this recipe between them)*

## Directions:

Add the oil, alcohol, and water to your bottle and shake to mix. You may need to shake this a little before each use also.

Keep the bottle somewhere close to the toilet but out of reach of little hands.

Spray a couple of squirts in the toilet before you go and give it a try.
